LANGUAGE

English
Nepali

After my high school degree (+2), I have been passionate about web development and selflearning. I do enjoy about learning new programming language and apply to my projects. I have done web development projects. Some of my projects are enlisted in GitHub and hosted.

EXPERIENCE

GLOBAL TECH COMPANY WEBSITE

As in learning phase I and my friend have successfully created website for this company. Here we build front end design by using Adobe XD, HTML, CSS, JS, Json for front end coding. The company has got new design and transformed the sites.

- Responsive and custom design for each page

PORTFOLIO WEBSITE

I have created portfolio for myself. I have hosted this project using GitHub free hosting.

- Responsive design.

TREK-NEPAL WEBSITE

Creating this site was awesome the designs and logo was something I learnt from this site. I used Vue.js to create component and use the many times in my projects.

- Responsive design.
